DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species:

Group I (Claims 1-8, 32-39 and 63-70) corresponds to Figure 10.

Group II (Claims 9-13, 40-44 and 71-75) corresponds to Figure 11.

Group III (Claims 14-19, 45-50 and 76-81) corresponds to Figure 12.

Group IV (Claims 20-24, 51-55 and 82-86) corresponds to Figure 13.

Group V (Claims 25-31, 56-62 and 87-93) corresponds to Figure 14.

The species are independent or distinct because each group of claims represents separate embodiments of Applicant's invention, which would result in an examiner's search of five separate inventions.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations

Art Unit: 2623

of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).
